DESCRIPTION

The pergola is a decorative garden structure consisting of a sturdy steel frame and horizontal beams, with the option to add walls with steel cables for climbing plants. It is ideal for creating a shaded outdoor seating area while adding aesthetic appeal to a garden, park or terrace. Our Pergola offers protection from the sun, increasing the functionality of the outdoor space of your home, office or urban and park space.

The structure of the pergola is bent, welded and bolted from 120 x 114 mm l-beams and 120 x 80 mm rectangular profiles from s235Jr carbon steel galvanised and powder coated according to RAL palette. Roofing of the pergola using 25 boards measuring 45 x 70 x 2740 mm. European coniferous wood impregnated and varnished twice or exotic wood impregnated and oiled twice. It is possible to additionally finish the side walls of the pergola with boards or steel cables.
